

# VIRTUAL LEARNING SESSIONS

## **Teaching All Subjects Through Science - An Innovative New Approach to STEAM**

*Thursday April 23rd, 2026 4:00 - 5:00 PM*

Explore how a K-5 school uses science to unify ELA, math, and social studies through NGSS pacing—driving stronger engagement, attendance, and behavior while supporting multiple standards. Attendees will learn practical ideas and strategies for bringing science-centered learning to your classroom.

## **Exploring the World of AI**

*Thursday April 30th, 2026 4:00 - 5:00 PM*

Explore the world of AI in education with an engaging introduction to what's happening now and what it means for teaching and learning. Collaborate on innovative ideas for integrating STEM and AI into your classroom in meaningful, future-focused ways.
